BLE DISPLAY. A brighter day than was vouchsafed the farmers of this good old town for their annuat fair yesterday could not be painted. In fact, it was "custom made" in every respect, and the people of the pleasant valley of the Deerfield came pouring into town in every conceivable conveyance before the surroundg hill-tops caught the first rays of old Sol's effulgence, which at midday was notably oppressive, and the gentler sex swung their fans and spread their parasols in genuine summer style, with the mercury above ou in the shade. Good judges aver that this year's festival brought together the largest crowd ever seen upon the grounds at one of the society's nearly thirty annual exhibitions. The officers, including President Corbett, Secretary Chandler and Treasurer Sargent, were early and constantly at their posts, and are deserving of praise for their efforts in behalf of the county press. Marshals H. G.

Riddell and Mills Brown proved themselves competent officers, and Wheeler's American band of North Adams discoursed most excellent music throughout the day. In short, Wilmington never had a better cattle-show, while leaving upon its farms more and better stock than the sturdy farmers brought out. L. Stone showed a pen of grade cows, among which was a splendid Alderney, which took the first premium and was sold on the ground. J. M. Bassett brought out a pair of six-months old calves, weighing 857 pounds. S. B. Barnard exhibited an 8-year-old cow, ogether with a pair of oxen; weight of latter 20, which were much admired, H. G. — Crude rubber has risen fifty per cent. in price since last spring, owing to the light supply. The caoutehout trees of Brazil are dying out owing to frequent tapping, and the Indians who collect the gum are compelled to go further into the dangerous and almost impenetrable forests. As the Indians are lazy and the work arduous and poorly paid, they will not undertake it if other employment can be found. The 22 per cent. tax levied by Brazil makes the matter worse.

New York people are complaining bitterly of the condition of Central Park since it
fell into the hands of the Tammany Hall politicians. It is declared that the park, which
was once a thing of beauty, and recognized
by all connoiseeurs as the best example of
landscape gardening in the world, is now lossing its beauty and fast going to decay.

PECTORAL. It of results. It strikes pulmonary diseases, afterding prompt relief and rapid cures, and is adapted to patients of any age or either sees. Being very palatable, the youngest children take it readily. In ordinary Coughs, Colds, Sore Throat, Bronchitis, Influenza, Clergyman's Sore Throat, Asthma, Croup, and Catarrh, the effects of Ayra's Churny Pectorat, are magical, and multitudes are annually preserved from serious illness by its timely and faithful use. It should be kept at hand in every household for the protection it affords in sudden attacks. In Whooping-cough and Consumption there is no other remely so efficacious, seathing, and helpful.

Low prices are inducements to try some of the many mixtures, or syrups, made of cheap and ineffective ingredients, now offered, which, as they contain no curative qualities, can afford only temporary relief, and are sure to deceive and disappoint the patient. Diseases of the throat and lungs demand active and effective treatment; and it is dangerous experimenting with unknown and cheap medicines, from the great liability that these diseases may, while so trifled with, become deeply seated or incurable. Use Ayrar's Churny Pectonia, and you may confidently expect the best results. It is a standard medical preparation, of known and acknowledged curative power, and is as chemp as its careful preparation and fine ingredients will allow. Eminent physicians, known its absolute certainty to cure all pulmonary complaints not already beyond the reach of human aid.
